

平成25-31年度 水質検査結果 原水(採水場所: 当別浄水場内)

水質基準項目

Table with columns for water quality parameters (e.g., temperature, pH, dissolved oxygen), sampling points (R1 to R24), and numerical results. It includes sub-headers for R1(H31)原水, R2(当水), R3(R20.6), and R4(R20.6) and various trace substance limits.

※ R20.6中から原水の大量漏れによる経路不明による汚染

水質管理目標設定項目

Table with columns for water quality parameters (e.g., ammonia, nitrate, nitrite, trace organics), sampling points, and numerical results. It includes sub-headers for R1(H31)原水, R2(当水), R3(R20.6), and R4(R20.6) and various trace substance limits.

※採出値と目標値の比の和が1を超えないこと

独自検査項目

Table with columns for water quality parameters (e.g., electric conductivity, turbidity, total suspended solids, specific conductivity), sampling points, and numerical results.
