

Water quality standard items table. Columns include item number, item name, and multiple data columns for H25 Dam (lower layer), H25 Dam (lower layer) summary, and H26 Dam (lower layer). Rows include parameters like temperature, pH, dissolved oxygen, and various chemical substances.

Water quality management target items table. Similar structure to the standard items table, but focusing on specific management targets. Columns include item number, item name, and data columns for H25 and H26 Dam (lower layer).

Independent inspection items table. Columns include item number, item name, and data columns for H25 Dam (lower layer), H25 Dam (lower layer) summary, and H26 Dam (lower layer). Rows include parameters like electrical conductivity, alkalinity, and specific chemical analysis.

平成25-令和5年度 水質検査結果 採水場所:当別ダム湖・中央 下層(水深10m(H25、H26)、湖底上1m地点(H27～))

水質基準項目

Table with columns for item number, item name, and data for stations R1(H31) Dam (Lower), R1(H31) Dam (Lower) Summary, R2 Dam (Lower), and R2 Dam (Lower) Summary. Includes items like temperature, bacteria, heavy metals, and nutrients.

水質管理目標設定項目

Table with columns for item number, item name, and data for stations R1(H31) Dam (Lower), R1(H31) Dam (Lower) Summary, R2 Dam (Lower), and R2 Dam (Lower) Summary. Includes items like pesticides, antibiotics, and disinfectants.

独自検査項目

Table with columns for item number, item name, and data for stations R1(H31) Dam (Lower), R1(H31) Dam (Lower) Summary, R2 Dam (Lower), and R2 Dam (Lower) Summary. Includes items like electrical conductivity, alkalinity, and specific disinfectants.
